

1ST Choice Seeds®
1st in Seed Quality

Options: • FC 707 C

Hybrid Characteristics:

- Medium tall plant that is well suited for average and lower yield environments.
- Bred for wildly variable soils and conditions.
- Exceptional late season intactness and staygreen.
- Typically 16-18 rows on a semi-flex ear.
- Very good natural corn bore tolerance.

Ratings: Superior 9-10 Excellent-8 Very Good -7
 Good-6 Average-5 Below Average 0-4

Management Tips:

- Great corn-after-corn choice for the Conventional1 grower.
- Excellent foliar health, shows little response to fungicide applications.

| Recommended Planting Population | | |
|---------------------------------|-----------|-----------|
| Low | Medium | High |
| 28-30,000 | 30-32,000 | 32-34,000 |
| Relative Maturity | | 111 day |
| Degree Days | | 2740 |
