# FC 805

- Options:**
- FC 805 C
  - FC 805 RR2
  - FC 805 VT3P
  - FC 805 VT2P

## Hybrid Characteristics:

- Well adapted North to South in our market
- Medium height plant with medium ear placement
- Good late season intactness
- Long tapered ear that flexes on length.

Ratings: Superior 9-10 Excellent-8 Very Good -7  
 Good-6 Average-5 Below Average 0-4

## Management Tips:

- Manage for high yield with full fertility
- Benefits from foliar fungicide
- Plant style necessitates good weed management early in the season.
- Moderate planting populations on lighter more variable soils
- Superior test weight.
